

Meeting Minutes

Date: December 16, 2020

By: Jean Davids, Secretary/Treasurer

The meeting started just after 7:00 pm and was presided over by president, Heather Reinhart. We had a great turnout with 11 members in attendance. Once again, we met via Zoom and will continue until it is safe to meet in person again. We'll continue to take it month by month but for now, expect it to go into the spring of 2021 at least. We might try to do a combo of zoom and in person once River City Extreme opens up again.

This was our attempt at our annual holiday meeting but digital this year. Our assignment was to share up to 10 of our top photos for 2020. We had great photos that were shared by Cindy Mendel, Kevin Juliot, Bob Somerville, Steve Fowler and myself (Jean).

We then got into some conversation about topics for next year. We all agreed that we will have Jeff Lavigne be our Featured Photographer and speaker for our January meeting. He will talk about doing photography in the Florida Everglades.

We also talked about whether we could get people to be a Featured Photographer. Don Pfleiderer agreed to do it at some date and Heather agreed to do it after she returns from Anchorage. I just have to confirm when her trip is. It would be great if we would all agree to do a stint at it. Don also said he knows a guy (Jim Stevens?) that takes a lot of hummingbird photos in an area and that he will talk to him about maybe having him join in on one of our zoom sessions to talk about that. Don will get back to me on this.

We will work on the rest of the agenda categories for next year as soon as the holidays are over.

2021 Camera Club Meeting dates and topics

January 20, 2021

Assignment: Select A Single Color (white?) – Pick a color for the assignment. Images should be primarily this color or at least be the standout color in the photo.

Topic: Feature photographer - Jeff Lavigne will start this up for us again. He will also present on photographing tips for the Florida Everglades including places to stay, eat and good places to photograph landscapes and wildlife, especially birds.
