

# Meeting Minutes

Date: June 21, 2023

By: Jean Davids, Secretary/Treasurer

Jean Davids presided over the meeting. There were 9 members in attendance. It was great to see Bob Somerville again.

We had three members contribute photos for our assignment, "July". Thanks for sharing!

We discussed the upcoming calendar and it was decided that with today's use of mirrorless cameras that lens calibration was not of interest to the bulk of the members present. This was to be the topic for August and so we moved up Action photos to that month. However, upon review, I saw that the actual topic for August is going to be Landscape and Waterfalls presented by Anthony Hall. My apologies for the confusion. See below and on our website calendar page for the updated schedule. Action Photos will remain the topic for our September meeting.

The topic was "Photos in the dark" and we encouraged members to bring in camera gear and tripod. Jean Davids shared two videos and then turned it over for play time with our gear. She also brought in two characters from home to photograph if desired.

Here are the videos shared:
